Housing Authority grants to aid energy efficiency

San Bernardino County Housing Authority has received a federal grant of more than \$3.3 million for energy efficiency and green upgrades for 337 apartment units at the Medical Center complex in San Bernardino.

A statement said the authority earlier this year secured \$9 million in private funding for energy and water conservation improvements at its other apartment complexes in Barstow, Chino, Colton, Fontana, Redlands and San Bernardino. The agency is now investing about \$12.4 million for green technology upgrades at complexes where most tenants are seniors, people with disabilities, and children.
